

Thorntons Investments named Best AIM Portfolio Service

Thorntons Investments celebrated success at the Growth Investor 2024 Awards tenth anniversary dinner at the London Hilton on Park Lane.

Organised by Intelligent Partnership, these prestigious awards honour the companies and individuals who go above and beyond to support the UK's burgeoning businesses, fostering job creation, driving economic growth, and championing innovation.

The highly coveted award for 'Best AIM Portfolio Service' is Thorntons Investments first major award and we are thrilled to have prevailed against very strong competition.

The award was presented by Claudia Winkleman to Matt Strachan, Chief Investment Officer at Thorntons Investments.

"Their nomination demonstrated impressive results from a small, but clearly very hardworking and knowledgeable team. Judges praised their comprehensive approach, saving investors money and enabling them to maximise legacy wealth".

Growth Investor Award judges

"I am delighted to receive this award on behalf of the whole team at Thorntons Investments and wish to thank Intelligent Partnership and the judges for their recognition. We are all extremely proud.

It has been particularly rewarding to see our services attracting new investors into innovative and exciting AIM companies, supporting their growth and development, and providing a legacy for future generations".

Matt Strachan
